

The image shows a template for a fishbone diagram. It consists of a central horizontal spine. On the left side of the spine, there are five rectangular boxes, each with a pointed right side that fits into the spine. On the right side of the spine, there are five smaller rectangular boxes, each with a pointed left side that fits into the spine. The boxes are arranged in a vertical column, one above the other, and are connected to the central spine by short diagonal lines.
